

FIELD AGENT REPORT (Please visit my website:kofcdavidkeeling.com)

A true story: A few weeks back I saw a brother Knight at a function who is an Air Force veteran, 10 years away from retiring with not a bit of fat on his lean body. He looks good, smiles & laughs easily.

I had sent him a letter a week before this function asking if I could review his KofC annuities and any life insurance he had. He said he would think about it. This isn't the 1st time I have asked him. A week later, he is flat on his back in a hospital from suffering a heart attack, needing surgery and is now uninsurable.

This is how life works... No warning from God, the doctor didn't find any harmful signals in those last medical exams, no pain or discomfort was felt leading up to what happened. Would this brother have replied to me "I'll think about it" if he had any inkling his good health was about to take a fall?

Losing your life or suffering a disability next month-next year causes a family to lose the house, the car and if children in the family, lose their dreams. How long have you had family financial responsibilities and during that time, could have called or responded to a letter asking for a policy-review appointment?

Like life insurance, Knights of Columbus offers Disability Insurance paying in addition to what State Disability/Workmen's Comp provides, which is an average 55% of your regular income. I don't know of many households that can live on 45% less income of what they normally earn to pay the bills... do you?

So, I am asking to come see what you have in life & Disability insurance protection and how it will cover your debts & income responsibilities today & tomorrow because, I don't want you & your family to get caught unprepared financially. Please call me at: (909) 824-1024 or e-mail at: david.keeling@kofc.org
